

Guardian Series 2000

CARPET TO FLOOR AISLE LIGHTING

APPLICATION

Tempo's Guardian 2000 Series LED Carpet to Floor Aisle Lighting product is made from a durable, flexible extruded vinyl. The profile of the Carpet to Floor version of the Guardian Series is design to allow the edge of most 1/4 inch to 3/8 inch thick commercial grade, low pile carpet to be easily tucked under the 7/16 inch wide wings of the vinyl extrusion while the other side features a downward slope to transition to a floor area.

The Guardian 2000 Series is manufactured with our unique two-inch light cell containing 12V LEDs. The Guardian 2000 Series can be customized to meet the design criteria of any venue through the use of available deflector or diffuser inserts, LED spacing and assorted LED colors.

CONSTRUCTION

- Made from a durable, flexible extruded vinyl
- Factory assembled in 30- and 60-foot spooled rolls
- Design allows the edge of most commercial grade, low pile carpet to be easily tucked under the wings of the vinyl extrusion while the other side features a downward slope to transition to a floor area.
- LED module spacing options available in 6", 9", 12" and 18" on center

OPTICS / LENS / DIFFUSER

- Acrylic Clear or Tinted diffuser lenses spread the light evenly across the light module

PERFORMANCE

- Simple installation includes gluing assembled extrusion to the desired surface
- Easily modified at the job site. The extrusion can be cut as close as two inches from the edge of a light source.
- Parallel wiring utilizing Class 2 power supply allows each light source to operate independently, providing superior safety and ease of maintenance
- Only 0.25 watts energy consumption per LED module
- Operates on 12V AC or DC power

LIGHT CHARACTERISTICS

- Unique two-inch light cell containing 12V LEDs
- Assorted LED colors available in Blue, Green, White, Amber, Red and Yellow
